

Ecodis : to sell green you need to be green !

ecodis

FIZIANS
Environnement

Ecodis is an ecofriendly company offering a wide range of ecological products for baby products to household products. The company is considering environmental issues in every aspects of its activity: the products are complying with several Eco labels, a responsible purchasing policy is implemented and projects are chosen for their environmental accuracy. The SME of nearly employees also has a CSR.

Therefore, it is only logical for Ecodis to continue its efforts with energy matters and the Projet Zéro Carbone realized with Fizians Environnement and the support of the ELEEN program.

It is a 3 steps project:

- Carbone footprint of the company
- Measure of the main product's Carbone impact
- Carbone compensation aiming to 0 impacts
